

Zoo video shows elephant trainer entering stall twice before attack

Toledo Zoo officials on Wednesday played video clips of an elephant attack that shows a trainer entering the animal's stall two times, the first time with treats and the second time with a hook to control the elephant. The video clips, which were shot from different camera angles, also show Louie the elephant backing trainer Don RedFox into a corner where he was attacked.

This screen shot from Toledo Zoo video shows an encounter between Louie the elephant and trainer Don RedFox. (TOLEDO ZOO VIDEO)
